## Abstract

A clear and well-documented  $\text{\LaTeX}$  document is presented as an article formatted for publication by ACM in a conference proceedings or journal publication. Based on the “acmart” document class, this article presents and explains many of the common variations, as well as many of the formatting elements an author may use in the preparation of the documentation of their work.

## CCS Concepts

• **Do Not Use This Code → Generate the Correct Terms for Your Paper;** *Generate the Correct Terms for Your Paper;* Generate the Correct Terms for Your Paper; Generate the Correct Terms for Your Paper.

## Keywords

Do, Not, Use, This, Code, Put, the, Correct, Terms, for, Your, Paper

## ACM Reference Format:

## 1 Submission Instructions

Submit your PDF file electronically by **Friday, June 12, 2026, AoE (anywhere on earth)** following the instructions at <https://www.hotstorage.org/2026/cfp.html>.

### 1.1 Page Limits

- **Papers** may include at most 5 pages of content using 10pt font, including everything except references.

### 1.2 Formatting

- Please use the ACM latex template for your submission (acmart.cls). This latex file is a simple usage example.
- Categories and subject descriptors are required for the camera-ready version only. You can choose not to include them in your submission.
- The review process is **double-blind**. The “anonymous” parameter keeps authors’ name and affiliation hidden, remove it after the review process finishes. Please refer to the sample author block in this document.
- Ensure that the figures and tables are legible. Please also ensure that you refer to your figures in the main text. Many readers print the papers in gray-scale. Therefore, if you use colors for your figures, ensure that the different colors are distinguishable in gray-scale.

### 1.3 Citations

Use a *number* citation format as following [1–3].

## 2 Camera-Ready Submission Instructions

- Do **not** include page numbers in the final manuscript.
- Classification and Keywords are only required for the camera-ready version (instructions in tex file).
- Make sure all fonts are embedded in the resulting PDF file.
- Authors will be individually contacted by ACM with instructions on submitting the rights management form. The system will also provide rights management text and a bibliographic strip to appear underneath the

copyright notice (ISBN, doi). Authors are responsible for updating their manuscripts with this information.

- The finalized PDF of your paper should be submitted following the instructions at <https://www.hotstorage.org/2026/cfp.html>.

## Acknowledgments

Acknowledgments are for the camera-ready version only. Please do not include them in your submission.
